

## PREMIUM TRAINING COURSE

### HÜBNER Training - Theory and Practice for Gangway Systems

#### COURSE DURATION:

8 hours / vehicle type (brand, model, year)

#### TRAINING CONTENTS:

- Structure of the articulation system including HÜBNER articulation control unit (ACU), folding bellows and energy guidance system
- Functioning of the articulation system and folding bellows as well as safety-relevant components
- Functionality of the HÜBNER Articulation Control Unit (ACU)
- Identification of HÜBNER components
- Maintenance recommendations for your articulation system and folding bellows
- Criteria for assessing the condition of components
- Knowledge building on the repair of folding bellows (application of repair patches to the folding bellows material, repair of broken aluminum profiles)
- Presentation of special HÜBNER repair tools for the articulation system
- Knowledge building on the replacement of relevant components (metal-rubber bearings, radial spherical plain bearings)
- Theoretical training unit based on technical documentation and practice-oriented training unit dealing with the articulation system, folding bellows and energy guidance system

#### TRAINING GOAL

The **Premium Training Course** provides detailed technical knowledge on the entire gangway system, consisting of the articulation system, folding bellows and energy guidance system.

Recommendations for extending the service life of the articulation system, folding bellows and energy guidance are also provided. In addition, it is demonstrated how common repairs to the articulation system should be carried out and how the current technical condition of articulation system and folding bellows components can be assessed.

#### TRAINING LOCATION:

The training will take place at your premises. For the practical unit work will be done with the gangway system of your vehicle.

#### NUMBER OF PARTICIPANTS:

Up to 8 persons (further participants on request)

#### OUR SERVICE FOR YOU:

Specialized and experienced training personnel

Training documents and hand-out

Training certificates for all participants
